My dear Mirza,

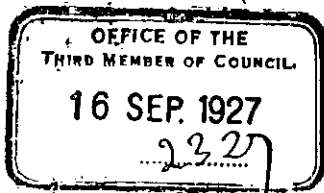

DEVELOPMENT BRANCH.

I have just received the report on the registration of companies for the past year and hope you will not mind my inviting your attention to one^{or} two points in connection therewith.

(1) One thing that has done more harm than any other to the development of joint stock business in India is the number of failures amongst Swadeshi institutions, especially those that carry on the business of banking.

(2) It would seem that such failures are inevitable when the benefits of limited liability are given to institutions which describe themselves as banks whose paid up capital amounts to such small sums as the following:- Rs.9,400, Rs.2320, Rs.943, Rs.1707, Rs.5,000, Rs.5226, Rs.7990, Rs.2380, Rs.5,000, Rs.8909, Rs.8250 and Rs.3375. Similarly as regards the other businesses I find in the list, publishing companies whose paid up capital amounts to such small sums as Rs-6545, Rs.5887 and Rs.675, a Technical Institute, Ltd, Rs.3832, a Pioneer Industrials Ltd, Rs.4,000, a Soap and Candle Works, Ltd, Rs.2466, a Karnataka Industrial Co., Ltd, Rs.475, a Perfumery and Indigenous Industries Ltd, Rs.1106, etc.

(4) Meanwhile, the Registrar makes the remark that frequent complaints are being received in his office against the directors, which cannot be enquired into, as such complaints refer mostly to matters relating to the internal management of the companies. This is dealt with in the review by a remark also taken from the Registrar that the shareholders of the companies in general have not realised their own rights and powers and are not therefore taking the interest that they are expected to take in the progress and

-2-

9

and management of the companies.

5 What I would venture to ask is whether it would not be wiser, in the interests both of the shareholders and of the public at large, to require that no company should be allowed the benefits of company registration and limited liability unless it were able to show that it had such a paid-up capital as would enable it to conduct a reasonable amount of business ~~and~~ Further that, during the infancy of the joint stock movement in Mysore it might ^{be} ~~do~~ well to give shareholders and the public a greater degree of protection by means of Government inspection, in other words, to have something like an efficiency audit of their accounts, which would keep Government apprised of the manner in which the business was being conducted and able to intervene at least to the extent of bringing the light of publicity to bear on cases of scandalous mismanagement.

Yours sincerely,

G. S. S. S. S.
